

PaPa Publishing House 巴巴文化

PaPa Publishing House publishes picture books, fairy tales, and fiction for kids. Every book is created by Taiwanese writers and illustrators. We hope to add more caring and local elements to our books, aiming to give children chances to read about themselves by producing more Taiwanese-based stories. By making high-quality children's books, we also encourage our children to experience the beauty of the integration of verbal and visual elements and start to notice the stories that happen around every corner.
